EuropAgora, a space for meeting and reflecting for a social Europe

In our globalized world, the founder members are convinced that only the development of social Europe, for a true Europe of citizens, is able to guarantee social cohesion, solidarity and a chance for peace

EuropAgora wants to promote an European society inspired by fundamental values such as liberty, equality and solidarity.

EuropAgora units individuals of different sensibilities and experiences by individual affiliation. The principle of collective affiliation does not frame within the association.

EuropAgora is an independent association, strictly financing its activities through the members contributions and legal aids

Can be member of EuropAgora any person who shares the association's aims.

Membership – 20€
